ASX/NZX/Media Announcement 17 March 2011

Kathmandu Holdings announces first half year results substantially ahead of last year:

NZ\$ DENOMINATED RESULT

- · Sales up 19.2% to NZ\$127.1m,
- EBIT up 28.4% to NZ\$19.9m,
- NPAT up NZ\$6.1m to NZ\$10.5m.

AU\$ DENOMINATED RESULT:

- Sales up 13.5% to AU\$97.4m,
- EBIT up 21.6% to AU\$15.2m,
- NPAT up AU\$4.4m to AU\$8.0m.

Kathmandu Holdings Limited (ASX/NZX:KMD) today announced a 28.4% increase in Earnings before interest and tax (EBIT) to NZ\$19.9 million, for the six months ended 31 January 2011. Net profit after tax (NPAT) increased from NZ\$4.4 million to NZ\$10.5 million for the same period. The results for last year are exclusive of the costs of the November 2009 Initial Public Offering and where applicable their associated tax deductions.

NPAT for the six months ended 31 January 2011 increased \$2.5 million (31.3%) on the pro-forma NPAT of \$8.0 million for the half year in FY10. The pro-forma calculation of last year's NPAT excluded IPO costs, and also adjusted for the costs associated with the new debt levels and listed company structure (net of associated tax deductions) as if they had applied for the whole period rather than only the last 11 weeks in that period after the private equity sell down.

² FY10 result excludes costs and associated tax deductions incurred for the IPO of the company

Kathmandu Holdings Limited Chief Executive Officer, Mr Peter Halkett said he was satisfied with Kathmandu's trading performance for the half year, particularly the key December and January trading period. "We achieved Group same store sales growth of 12.1% for the half year. In November at our AGM update we reported same store sales growth of 2.1% for the first 16 weeks of the year. By 31 January we had lifted that performance significantly, as well as improving gross margins. Given the retail environment over the period we clearly consider this is a very solid performance", said Mr Halkett.

Highlights from 1H FY11 results include:

- Same store sales growth of 12.1% (9.5% at comparable exchange rates),
- Gross profit margin increased from 61.3% to 64.7%,
- Three new stores opened, all in Australia.

Kathmandu Holdings Limited Chief Executive Officer, Mr Peter Halkett, said the results were achieved in a very demanding economic environment, in all the countries Kathmandu operates. "The retail sector generally has been under pressure for some time, due to the weaker economic environment that has confronted consumers and as householders reduce their personal debt" said Mr Halkett. "However since our IPO Kathmandu has made a considerable investment in people and resources, and the Company is now delivering a broader product offering across a store network that has increased by 18 stores (approximately 22%) since the start of the 2010 financial year."

The Company's restructured balance sheet with lower debt levels has enabled it to carry higher stock holdings across key product categories when compared to the investment in stock prior to the company being listed.

"This is the first 6 month trading period that reflects the outcome of key growth initiatives, in particular an increased long term investment in inventory, that are now able to be pursued under our new capital structure with lower debt levels. We have seen strong ongoing same store sales growth in Australia and New Zealand since early December. The new products and ranges released this summer, supported by improved availability across our entire range have been a key driver of this result" said Mr Halkett. "During the December and January trading period, weather conditions were also favourable for sales in some categories, particularly in Australia given the relatively cool and unusually wet summer on the east coast."

The uplift of first half year sales and profitability provides a very solid start to the year, and looking ahead Kathmandu is cycling against a weaker trading performance in the second half year FY10, whereas first half year FY10 was a strong period. However given Kathmandu's annual trading pattern the overall result for the year remains dependent upon the second half year performance and in particular the key winter sale trading period at the end of the financial year. Peter Halkett observed that "Winter sale remains our largest annual promotional event, and this means we must successfully execute our strategies until virtually the last day of winter sale before we can be confident about our overall year's result. Nevertheless we've had a successful start and we are now well positioned to improve our year on year performance".

SALES, STORE NUMBERS AND GROSS PROFIT MARGIN

¹ Calculated on local currency sales results (not affected by year-on-year exchange rate variation)

Mr Halkett noted that "the higher same store sales increase in Australia reflected greater product focus and investment, growing brand awareness and favourable weather conditions in that market. We had good same store sales growth in all the Australian capitals, whereas New Zealand was more mixed. The UK business had the anticipated uplift prior to the 1 January increase in VAT but by the end of that month most of that sales gain had been offset".

Stores open 31 January	1H FY11	1H FY10
New Zealand	36	33
Australia	58	51
United Kingdom	6	6
Total Group	100	90

Kathmandu opened three new stores in the period, all in Australia:

• Logan QLD, Wollongong NSW and Perth Harbour Town WA.

Kathmandu has a target of 15 new stores to be opened for the full year. The following new locations have already been secured and are expected to be open prior to 31 July 2011:

- New Zealand: Whakatane, Coastlands (north of Wellington), Papanui (Christchurch)
- Australia: Southport, Toowoomba, Orange, Southland (Melbourne), Belconnen (Canberra), Whitford City (Perth).

The expectation remains that the current target of 15 new stores will be achieved by 31 July. No further new stores are planned for the UK this financial year.

Half Year Ending 31 January 2011	1H FY11	1H FY10
Gross profit margin %	64.7%	61.3%

Gross profit margins were improved, more so in Australia. This was primarily as a result of price changes and product mix, rather than reduction in the cost of goods sold. The impact of well publicised increases in cost of product sourced out of China in particular will be a more significant challenge to margins in the second half year. Retail pricing will continue to be adjusted where necessary to reflect increased costs. This will be balanced with the importance of ensuring price competitiveness is maintained, particularly in volume lines.

OPERATING COSTS

Operating Expenses excluding depreciation and IPO costs	NZ \$m & % of Sales 1H FY11 1H FY10		
	45.0	40.7	
Rent	15.3m	12.7m	
% of sales	12.0%	11.9%	
Other Operating costs	43.7m	34.5m	
% of sales	34.4%	32.4%	
Total	59.0m	47.2m	
% of sales	46.4%	44.3%	

Kathmandu's operating expenses increased by 210 bps as a % of sales. The primary increases were in advertising, salaries and wages, and the uplift in expenses associated with a full period this half year as a listed company. It is anticipated that for the full year, operating costs as a % of sales will be the same or slightly higher than the result achieved in FY10. This is primarily because of the anticipated salaries and wages expense for the full year, inclusive of expected performance incentives payable at targeted overall earnings levels in FY11.

. . _ .

EBITDA margin for the first half year increased from 17.0% to 18.3% and EBIT margin similarly increased from 14.5% to 15.7%.

OTHER FINANCIAL INFORMATION

Capital expenditure for the year is expected to exceed last year's total of NZ\$13.6m. Total capital expenditure spend will be affected by the number of new stores opened this financial year.

Total inventories increased by 42.7%, or NZ\$16.6 million and by 28.5% on a \$ per store basis. This reflected planned investment in additional product, both in terms of depth (particularly in core lines) and range. On a per store basis stock levels remain below the peak levels of two years ago. The strong first half year profit performance meant that the reduction in operating cashflow (\$8.8 million) was less than half the additional investment in inventories. Total net debt at 31 January and peak net debt pre-Christmas sale required to fund the build in inventories were at similar levels to those in the previous year. The ratio of net debt to net debt plus equity has remained similar at approximately 25%.

INTERIM DIVIDEND

Kathmandu confirms that an interim dividend of NZ 3 cents will be paid. The dividend will be fully imputed for New Zealand shareholders. It will not be franked for Australian shareholders.

FULL YEAR RESULTS OUTLOOK

Kathmandu's strategy for the balance of the year will be focused on delivering the targeted store rollout plan, ongoing investment in inventory and the maintenance of an aggressive marketing programme to support key sales activity, and the wider brand.

The key risks to achieving an improvement in second half year performance remain similar to those that impacted the second half year performance in FY10, specifically:

- Stock availability and supply chain interruption arising from offshore events, particularly in China;
- The variability of performance that can occur in the two key promotional events in the second half of the year, which are impacted by both consumer sentiment and the risk of unseasonal weather. The latter risk is especially relevant to the key winter sale event;
- The general level of market confidence, which has been impacted by recent events such as the flooding in Australia and earthquakes in Christchurch and Japan.

Despite these risks the Company expects that year on year growth in earnings will be achieved. We are continuing to grow our store base, and by 31 July 2011 Kathmandu's target is to have 112 stores open, compared to the 82 in operation at the end of FY09. Our very solid first half year performance coupled with the benefit from the planned store rollout provides confidence that second half year earnings will be improved compared to last year.

KATHMANDU HOLDINGS LIMITED - INTERIM REPORT 2011 DIRECTORS' REPORT

The Directors of Kathmandu Holdings Limited present the interim report for the Company and its controlled entities for the half year ended 31 January 2011.

Review of Operations

The consolidated net profit for the period was NZ\$10.510 million (2010: net loss NZ\$11.330 million). Last year's net loss was inclusive of NZ\$16.834 million of costs relating to the Initial Public Offering of shares in the Company. Sales for the period were NZ\$127.100 million (2010: NZ\$106.550 million).

A review of the operations of the Company and its controlled entities is set out in the accompanying Company's media release of 17 March 2011. Highlights during the half year included:

- Sales up 19.2% to NZ\$127.1m,
- EBIT up 28.4% to NZ\$19.9m,
- NPAT up NZ\$6.1m to NZ\$10.5m.

Additionally the Company's Christchurch operations were impacted by two earthquake events during the period, the initial 7.1 magnitude quake on 4 September 2010 and an aftershock on 26 December 2010, both of which caused minor business interruption costs that are expected to be recovered from insurance cover held for such events. A further more serious 6.3 magnitude earthquake on 22 February 2011 caused widespread damage to the city and some of the Company's premises, however the bulk of the costs and loss of income associated with this event are again expected to be fully insured, and the Company's head office and New Zealand distribution centre are fully operational.

Seasonality

Due to the seasonal nature of the Company and its' controlled entities activities, the activities in the second half of each year are expected to provide a larger portion of the sales and net profits for the full year.

The balance sheet at 31 January 2011 reflects a lower level of borrowings as compared to other times during the year due to the seasonal nature of the Company and its' controlled entities activities, in particular relating to the amounts spent to purchase inventory.

Dividends

On 16 March, the Directors declared a dividend of NZ 3 cents per share, which will be fully imputed for New Zealand shareholders, and the franked amount for Australian shareholders will be nil.

Auditors' Independence Declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 (Australia) is set out on page 15.

1 GENERAL INFORMATION

Kathmandu Holdings Limited (the Company) and its subsidiaries (together the Group) is a designer, marketer and retailer of clothing and equipment for travel and adventure. It operates in New Zealand, Australia and the United Kingdom.

The Company is a limited liability company incorporated and domiciled in New Zealand. The address of its registered office is 23-29 Albert Street, Auckland.

These consolidated financial statements have been approved for issue by the Board of Directors on 17 March 2011, and have been reviewed, not audited.

2 BASIS OF PREPARATION OF FINANCIAL STATEMENTS

These general purpose financial statements for the six months ended 31 January 2011 have been prepared in accordance with NZ IAS 34, Interim Financial Reporting. In complying with NZ IAS 34, these consolidated interim financial statements also comply with IAS 34.

These consolidated interim financial statements do not include all the notes of the type normally included in an annual financial report. Accordingly, this report should be read in conjunction with the audited financial statements of Kathmandu Holdings Limited for the year ended 31 July 2010 which have been prepared in accordance with the New Zealand equivalents to International Financial Reporting Standards (NZ IFRS) and International Financial Reporting Standards (IFRS).

All significant accounting policies have been applied on a basis consistent with those used in the audited financial statements of Kathmandu Holdings Limited for the year ended 31 July 2010, except as described below.

Reverse Acquisition

The acquisition of Milford Group Holdings Limited by Kathmandu Holdings Limited was identified as a reverse acquisition and the consolidated financial statements have therefore been prepared as a continuation of the financial statements of the accounting acquirer, Milford Group Holdings Limited.

Seasonality

The majority of Kathmandu's annual sales are derived from three major sales promotions in each year, occurring in a portion of the months of December and January (Christmas), March and April (Easter) and June and July (Winter). Two of these sales occur in the second half of the financial year, and the Winter Sale is the largest of these three promotions. As a consequence, a greater proportion of Kathmandu's sales and EBITDA are derived in the second half of each financial year, with the proportion in any given year dependent on the relative success of each of these promotions.

Non-current portion	63,006	80,380	53,965
Total term loans	80,257	80,380	53,965

The bank loan is part of a facility agreement with ANZ National Bank, Bank of New Zealand and Commonwealth Bank of Australia dated 19 November 2009. The loan is repayable in full on final maturity date of the facility being 13 November 2012. The current portion of the loan is working capital drawdowns made under the same facility. Interest is payable based on the BKBM rate (\$NZ borrowings) or the BBSY rate (\$A borrowings) plus a margin of up to 1.25%. The bank loan is secured against the assets of the company and its subsidiaries.

The covenants entered into by the Group require specified calculations of Group earnings before interest, tax, depreciation and amortisation (EBITDA) plus lease rental costs to exceed total fixed charges (net interest expense and lease rental costs) at the end of each quarter during the financial year. Similarly EBITDA must be no less than a specified proportion of total net debt at the end of each quarter. The calculations of these covenants are specified in the bank syndicated facility agreement of 19 November 2009 and have been complied with at the end of each quarter of the financial year to date.

The current interest rates, prior to hedging, on the term loans ranged between 3.87% - 6.10% (2010: 3.88% - 5.26%).

Revenue is allocated based on the country in which the customer is located. New Zealand includes holding company costs and head office charges.

Total assets / liabilities are allocated based on where the assets / liabilities are located.

The Group operates in one industry being retailer of clothing and equipment for travel and adventure.

13 EARNINGS PER SHARE

Due to the reverse acquisition referred to in note 2 above, the capital structure of the Group changed in November 2009. 9,081,072,000 Milford Group Holdings Limited shares were on issue prior to the IPO. 200,000,000 shares were issued in the IPO by Kathmandu Holdings Limited. As a consequence there is a significant variation in the weighted average number of shares between 2010 and 2011.

14 EVENTS OCCURING AFTER BALANCE DATE

The Christchurch earthquake that occurred on February 22nd 2011 is not expected to have a significant impact on future trading. Kathmandu has business interruption insurance that provides cover for this event. The company is not aware of any reason why its insurance would not cover all material costs or loss of profits in the current financial year that may be incurred as a result of the earthquake.

There are no other events occurring after balance date that materially affect the information within the financial statements.

Independent Accountants' Report

To the shareholders of Kathmandu Holdings Limited

Report on the Interim Financial Statements

We have reviewed the interim condensed financial statements ("financial statements") of Kathmandu Holdings Limited on pages 2 to 12, which comprise the balance sheet as at 31 January 2011, the income statement, statement of comprehensive income and statement of changes in equity and statement of cash flows for the period then ended, and a summary of significant accounting policies and other explanatory information.

Directors' Responsibility for the Interim Financial Statements

The Company's Directors are responsible for the preparation and presentation of the financial statements that present fairly the financial position of the Group as at 31 January 2011 and its financial performance and cash flows for the period ended on that date.

Accountants' Responsibility

We are responsible for reviewing the financial statements presented by the Directors in order to report to you whether, in our opinion and on the basis of the procedures performed by us, anything has come to our attention that would indicate that the financial statements do not present fairly the matters to which they relate.

A review is limited primarily to enquiries of company personnel and analytical review procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit on the financial statements and, accordingly, we do not express an audit opinion.

We have reviewed the financial statements of the Group for the period ended 31 January 2011 in accordance with the Review Engagement Standards issued by the New Zealand Institute of Chartered Accountants.

We have no relationship with, or interests in Kathmandu Holdings Limited other than in our capacities as accountants conducting this review, auditors, and providers of other assurance related services. These matters have not impaired our independence as accountants of the Group.

Opinion

Based on our review, nothing has come to our attention that causes us to believe that the financial statements which have been prepared in accordance with International Accounting Standard 34 and New Zealand Equivalent to International Accounting Standard 34: Interim Financial Reporting do not present fairly the financial position of the Group as at 31 January 2011 and its financial performance and cash flows for the period ended on that date.

Restriction on Distribution or Use

This report is made solely to the Company's shareholders, as a body. Our review work has been undertaken so that we might state to the Company's shareholders those matters which we are required to state to them in an accountant's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's shareholders as a body, for our review procedures, for this report, or for the opinions we have formed.
